

Enrolment in elective courses for the following academic year

1. Enter the Registration section

The registration section can be accessed as follows:

Student's Portal -> Registrations/Enrollment

2. Displaying study plans

Click on the **Display study plan** button. First for the Winter term, then do the same for the Summer term.

Sheet for WS 2021/2022

Remove the selected courses	Add required courses	Display study plan	Selection of subjects for WS
-----------------------------	----------------------	--------------------	------------------------------

Key: required elective optional

Sheet information

Information	Entry
Total number of required courses	11
Total number of credits for a period	39
Total number of courses	11
Total number of courses with completion "Pass credit"	6
Total number of courses with completion "Exam"	5

You can add courses in several ways. The most common way is to search for a course typing its title or code in the box below and clicking on the "Search" button. From the list of courses select those you wish to add. Only courses available at your faculty are subjected to search. To search through all periods throughout which the event is in progress tick the "select courses from all faculties" checkbox.

Course: Select courses from all faculties Details

It is easier and more convenient to select courses from pre-prepared groups. First select the period.

Key: required elective optional

3. Choice of electives

When you click on the **Display study plan** button, you will see a list of courses from which you can choose. Then select the appropriate number of courses according to your study plan and then confirm your choice by clicking on the **Add selected courses** button.

The illustration shows an example where students choose one subject from four different groups.

Do this for both the winter and summer semesters!

Study plan: N-NLI Forest Engineering, full-time

A group of required courses
Name: NLI Povinné (#L4LND010)
