

## Subject Selection Information for the Academic Year 2024/2025

### Study programme Forestry, Water and Landscape Management

#### The date of the venue:

The first round: from April 8 to 14, 2024

The second round: from April 22 to 28, 2024

Students of the first year of study programme Forestry, Water and Landscape Management will select optional subjects.

#### Subject Selection Rules:

1. The minimum number of credits required for passing subjects is 120 for the whole study.
2. The first round of the selection of optional subjects including languages will take place **from April 8 to 14, 2024** via the UIS (<http://is.czu.cz>). Students will select optional subjects offered for their study programme as well as their year of study in such a way that they will be able to reach the minimum number of 120 for the whole study.
3. The second round of the selection of optional subjects for the academic year 2023/24 will take place **from April 22 to 28, 2024** via the UIS in a way similar to the first round. In the above-mentioned period the students are asked to check if all subjects they are applying for are open and if they meet the requirement in section 2. Those who do not meet it will select subjects from a reduced offer for the second round (open subjects will be announced after the first round) in such a way that they will be able to reach the required number of credits.
4. We kindly ask you to select your subjects wisely as there will not be any possibility to unsubscribe from any open subject.

Study plans for the next academic year as well as the list of open and closed subjects after the first run of selection is finished will be found on [www.fld.czu.cz](http://www.fld.czu.cz). The maximum number of students in individual subjects is not limited.
