

Enrolment in elective courses for the following academic year

1. Enter the Registration section

The registration section can be accessed as follows:

Student's Portal -> Registrations/Enrollment

Choose	Study ID	Faculty	Study	Progress of study	Register for examinations	Registration/Enrollment
		FFWS	Forest Engineering full-time 1	enrolled		

2. Displaying study plans

Click on the **Display study plan** button. First for the Winter term, then do the same for the Summer term.

You can add courses in several ways. The most common way is to search for a course typing its title or code in the box below and clicking on the "Search" button. From the list of courses select those you wish to add. Only courses available at your faculty are subjected to search. To search through all periods throughout which the event is in progress tick the "select courses from all faculties" checkbox.

Course Select courses from all faculties Details

It is easier and more convenient to select courses from pre-prepared groups. First select the period.

3. Choice of electives

When you click on the **Display study plan** button, you will see a list of courses from which you can choose. Then select the appropriate number of courses according to your study plan and then confirm your choice by clicking on the **Add selected courses** button.

The illustration shows an example where students choose one subject from four different groups.

Do this for both the winter and summer semesters!

4. Correctness check

Finally, check that you have chosen the subjects you want and that your choices are in line with your study plan.
