

You are invited to **From Lab Bench to Market**, a one-day conference bridging academic research with industry, investment, and real-world impact.

Through keynote talks, a panel discussion, and a technology showcase, the conference connects early-career researchers with industry partners, investors, and technology transfer experts. Expect concrete inspiration, practical knowledge, and a network of contacts to help grow your innovation within Prague's biotech and healthtech ecosystem.

Early-career researchers are especially encouraged to submit an abstract and present a poster. This is your chance to put your work in front of academics, industry professionals, investors, and take a confident step toward turning your ideas into real-world impact.

Keynotes

- Kateřina Komrsková, Charles University/Institute of Biotechnology of the Czech Academy of Sciences (IBT CAS)/Molecule 46
- Barbora Špačková, Dioscuri Centre for Single-Molecule Optics at the Institute of Physics of the Czech Academy of Sciences (FZU)/ Envue Technologies
- Klára Grantz Šašková, Charles University/Institute of Molecular Genetics of the Czech Academy of Sciences (IMG CAS)/Adalid Sciences

Panelists

- Miloš Dendis, Dendis Capital
- Barbara Eignerová, IOCB Tech/Druhá ekonomická transformace (2ET)
- Jan Němeček, State Institute for Drug Control (SÚKL)
- Vojtěch Nosek, UNICO
- Barbora Špačková, Dioscuri Centre for Single-Molecule Optics at the Institute of Physics of the Czech Academy of Sciences/ Envue Technologies
- Klára Grantz Šašková, Adalid Sciences

WHEN: April 23rd, 2026

WHERE: SmetanaQ – Smetanovo náměstí 334/4, Praha 1

The conference will be conducted in English, welcoming researchers from across Prague's international academic community.
